net2phone Business Communications

Your All-Inclusive Cloud Business Phone System

Our Mission at net2phone is to drive business success through smarter conversations.

We know that voice is the lifeline of your business communications today, but your business needs more than just a dial tone. That's why at net2phone, we've integrated a full suite of tools to enable you to communicate in a variety of methods, both in and out of the office, or wherever your business takes you.

net2phone provides innovative and affordable cloud based telephony services through our flagship UCaaS, Hosted PBX and SIP Trunking services by combining advanced features, integrations, and unlimited calling to over forty popular destination countries for a flat monthly fee.

We're committed to supporting you day in and day out, right from the start. Our product experts, on-boarding specialists, and customer success teams will follow you every step of the way, ensuring that you reap all the benefits our service has to offer. We also provide free training and ongoing technical support, whenever and wherever you need it.

- ✓ Nationwide and International Capabilities
- ✓ Unrivaled Calling Plan with 40+ Countries Included
- ✓ Stable Proprietary Platform and Incredible Support
- ✓ Highly Competitive Pricing
- ✓ Simple & Friendly User Interface & Portals

A GLOBAL LEADER IN UCaaS SOLUTIONS

net2phone, a division of global powerhouse IDT Telecom, was established in 1990, as early pioneer in the commercialization of voice-over-Internet protocol (VoIP) technologies. Today, with this embedded Voice over IP experience at the core, 30+ years of on-going innovation, and an ever expanding global presence, net2phone is one of the fastest growing UCaaS providers in the world.

- 30+ Years In Business
- Backed by $1.5B Telecom Giant, IDT
- Operations in 9 Countries Across 3 Continents
- 1800 Dedicated Employees (350 in R&D)

Truly Global

Think global, act local with advanced international capabilities from net2phone.

900+ carrier interconnects, global data centers in 9 countries, and 1800+ employees across 6 continents worldwide combine to create a truly global offering, unmatched by any other provider. net2phone's cloud communication suite offers free unlimited calling to 40+ countries, virtual phone numbers (DIDs) in over 300 cities, and support for international number porting.

Phones & Devices

net2phone offers a wide range of options to enhance your communications experience.

Desk & Conferencing Phones:

Enjoy crisp, clear audio and powerful communication tools right at your desk or in your conference rooms. Pre-provisioned and can easily set up within minutes!

Cordless Phones & Wireless Headsets:

Untether from the desk and roam freely, without losing any of the quality or power. The utmost comfort and mobility!

Faxing:

Whether you're going full digital or you plan to continue using your fax machine, we have devices to help simplify the solution.

Paging & Intercom:

Enhance communications whether in a single room or large enterprise or campus environment.

Routers & Gateways:

Prioritize voice with a high degree of security and quality while supporting the evolving needs of your business or enterprise.

Other Accessories:

Wall Mounts, Expansion Modules, Switches, Adapters and more.
